

HIVE

BRAND GUIDELINES

One family. Four distinct environments.

HUMAN • INSIGHT • VISION • EXECUTION

● HIVE-WIDE ● OG HIVE ● TECH HIVE ● PRODUCTION HIVE

One family. Four environments.

The bee stays consistent across the system. Each branch changes the environment and dominant color so it feels distinct without leaving the HIVE family.

HIVE-Wide

The shared front door for the full HIVE family.

MIDNIGHT SPACE HORIZON

OG HIVE

The original HIVE, grounded in golden honey.

GOLDEN HONEY SUNBURST

Tech HIVE

The technology branch, expressed through blue circuitry.

BLUE CIRCUIT FIELD

Production HIVE

The showmaking branch, expressed through purple curtains.

PURPLE THEATRICAL CURTAINS

Choose the lockup by size.

Every branch has two approved lockups. The formal seal carries the full acronym. The simplified seal protects clarity when space is tight.

FORMAL SEAL

Use at 512 px and larger

Best for brand pages, event graphics, presentations, print, and large digital placements.

SIMPLIFIED SEAL

Use below 512 px

Best for avatars, navigation, profile images, app icons, and other small placements.

The acronym belongs to the formal seal only.

HUMAN • INSIGHT • VISION • EXECUTION

Keep the wording exact, uppercase, and separated with centered bullets. If the phrase is not immediately readable, switch to the simplified seal instead of shrinking it.

CLEAR SPACE

Keep at least one bee-head width around the complete seal.

The four formal seals

Use the seal that matches the branch. Do not recolor one branch to stand in for another.

HIVE-Wide

MIDNIGHT SPACE HORIZON

OG HIVE

GOLDEN HONEY SUNBURST

Tech HIVE

BLUE CIRCUIT FIELD

Production HIVE

PURPLE THEATRICAL CURTAINS

Core colors and branch accents

The original honey palette remains the shared foundation. Branch colors add orientation and personality without replacing the core system.

CORE PALETTE

Honey Gold #BD9348	Charcoal #313130	Soft Gold #DEC181	Cream #F6F4E5	White #FFFFFF
----------------------------------	--------------------------------	---------------------------------	-----------------------------	-----------------------------

BRANCH ACCENTS

HIVE-WIDE

DOMINANT BRANCH PAIR

Space #050811	Starlight #F6F4E5
-----------------------------	---------------------------------

OG HIVE

DOMINANT BRANCH PAIR

Honey #BD9348	Ink #313130
-----------------------------	---------------------------

TECH HIVE

DOMINANT BRANCH PAIR

Circuit Navy #011F46	Signal Blue #2F82C2
------------------------------------	-----------------------------------

PRODUCTION HIVE

DOMINANT BRANCH PAIR

Stage Purple #1F0338	Curtain Violet #A0708B
------------------------------------	--------------------------------------

USAGE RULE

Use charcoal on cream or white. Use cream or white on Space, Circuit Navy, or Stage Purple.

Two typefaces. Clear jobs.

The typography system stays intentionally simple: a warm editorial serif for identity and a clean sans serif for information.

Libre Baskerville

Human insight becomes shared vision.

HEADLINES + BRANCH NAMES

REGULAR + BOLD

Lato

Human insight becomes shared vision.

BODY + UI + MOTTO

REGULAR + BOLD

HUMAN • INSIGHT • VISION • EXECUTION

Always uppercase. Always in this order. Always separated with centered bullets.

Useful, but not branch logos

These marks remain available for specific jobs. They do not replace HIVE-Wide, OG HIVE, Tech HIVE, or Production HIVE.

Core bee mark

Use as a general HIVE symbol when no branch identification is required.

SECONDARY USE ONLY

Monochrome bee

Use only when a simple black-and-cream bee is required.

SECONDARY USE ONLY

Assistant mascot

Use for help, assistant, and guided-support contexts. Never use it as a branch logo.

SECONDARY USE ONLY

The family resemblance comes from the bee.

Keep the same organic bee silhouette across branch identities. Technology belongs in Tech HIVE's environment - not as a face, helmet, or robot character added to the bee itself.

Use the system consistently

Do

- Choose the branch by environment.
- Use the supplied transparent PNGs.
- Keep the seal circular and proportional.
- Switch to simplified when the motto gets small.
- Use the largest export available for print.

Avoid

- Do not mix branch colors.
- Do not add a face or robot features to the bee.
- Do not add a clapperboard to Production HIVE.
- Do not crowd the motto against the inner circle.
- Do not stretch, crop, outline, or add effects.

ASSET INDEX

Formal seals - with motto

1254 px / 1024 px / 512 px

LARGE PLACEMENTS

Simplified seals - no motto

1254 px / 1024 px / 512 px / 256 px
